

ISOELEC

ISOLATED ELECTRICAL LINESMAN HARNESS

HIP4678

The IsoElec harness provides all the comfort and benefits of Elite Construction Harness but includes specially isolated metal parts to protect electrical linesman and tower workers from electrical arc.

Designed for comfort and durability with elasticated shoulder straps. The IsoElec Harness is also suitable for general purpose, light abseil, work positioning and fall arrest. For greater versatility there are various attachment points spaced across the chest and waist, with tool loops located on the waist belt to attach additional hardware and equipment. Certified to AS/NZS 1891.1:2007.

RATING: 136kg

LIFESPAN: 10 Years

CERTIFICATION: EN 361:2002, EN 358:2018, EN 813:2008, AS/NZS 1891.1:2007

PRODUCT FEATURES

- Various attachment points to suit many working positions.
- Can be used with the Suspend Suspension Seat (supplied separately).
- Specially designed for the linesman, but this comfortable design also allows for use in a multitude of work applications.
- Fully adjustable for best comfort and fit including leg straps and risers.
- Polyester webbing construction for durability and strength.
- Elasticated shoulder straps for total comfort and freedom of movement.
- All metal components are covered with isolating neoprene covers. Also includes isolated rear D-ring and side positioning attachment points.
- Front and rear fall arrest attachment points and limited free fall arrest attachment points.
- Rear Shoulder, back and waist panels keep the harness in shape for easy fitting.
- Four gear loops to keep hardware and tools readily available.
- Extra wide padded back, waist, shoulder and leg straps for added comfort when hanging or working for long periods of time. Moisture wicking 3D mesh linings.
