EN366 81g塵粒，飛濺及水滴保護

562 Laser Eye Wears

Spec availble upon request

Variable speed fan
Thanks to the innovative pressure sensor inside the mask, the fan speed will be adjusted automatically based on the breathing curve, which means optimum breathing comfort.

LED lights
Working in dark or cramped spaces isn't a problem thanks to Tiki's built-in double LED lighting.

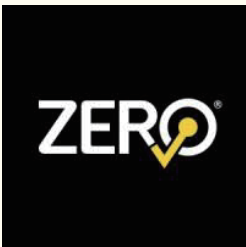

Unobstructed vision
As the filter is placed at the top of the mask, your vision down as well as to the sides is unobstructed.

Low weight
As opposed to many respiratory masks on the market, Tiki weighs very little - only 360-380g, depending on the size of the mask.

Facilitated communication
The design of the mask facilitates both visual and verbal communication. You can see each other's faces, and you can also talk on the phone, while wearing the mask.

Ergonomic fit
The mask comes in three different sizes - Small, Medium, and Large - in order to fit all.

充電後可用3小時/外置電池可用10小時
